

GENERAL IMPORTANT FIGURES

- GHG Emissions Mitigated: 73,368 tCO2eq
- Waste Sorted (January - June 2025) : 31,000 tons
- Avoided UPOPs (cumulative): 3.075 g-TEQ

ENVIRONMENTAL TOURISM TRAINING PROGRAM FOR TOUR GUIDES IN SOUTH SINAI
OVER 170 TOUR GUIDES TRAINED

The Green Sharm Project conducted a three-day specialized Environmental Tourism Training Program for tour guides in South Sinai, preparing them to deliver nature-positive visitor experiences while protecting Egypt’s natural heritage.

Program Highlights:

- **Protected Areas Covered**
 - Ras Mohammed
 - Nabq
 - Abu Galum
- **Ecosystems & Conservation**
 - Coral reefs, mangroves, seagrasses
 - Threatened species
- **Skills & Best Practices**
 - Environmental guiding techniques
 - Visitor management
 - Community integration
 - First aid & emergency response (marine & desert environments)

Certificates & Feedback

At the end of each day, participants received certificates of participation and completed surveys to guide future capacity-building efforts.

Engaging the Youth in Eco-Friendly Activities

Eco-Educational Session for Grade 8 Students

The Green Sharm Project, in collaboration with Banlastic and EcoEgyptExperiences, convened an interactive session for Grade 8 students at Rahn Schulen Kairo.

Key Themes

- Where does everyday waste go?
- What happens to plastic in the Red Sea? 🌊
- Simple actions to keep Sharm El-Sheikh and Cairo cleaner 🌍

Workshop Highlights

- Plastic use awareness & SDG card games
- Waste-to-Art activity ♻️
- Marine Conservation Coloring Books to support ocean literacy

The session empowered youth to become creative, responsible, and proactive environmental stewards.
